

Lab

CNN

Lab

Part 1

Before you start this lab, review the example (**FashionMNIST**) in ***Lecture 15 - Example - FashionMNIST***.

Part 2

Implement a CNN and train with **MNIST** (train data) in Colab.

Measure an accuracy with test data.

Submit your code (.ipynb or .py) and captured accuracy in blackboard.

Requirement: greater than 99% **test** accuracy
